

MASTHEAD ANCHOR LED LIGHT (F38-9000BLY)

Box Includes

- MASTHEAD ANCHOR LIGHT ASSEMBLY

Required* *not included

- HEX KEY SET
- RAG FOR CLEANING
- MARINE-SAFE CLEANER*

Installation Instructions

1. Position the top of the GS-900 in full-down position so the light is easily accessed.
2. Carefully remove the old light from the top of the GS-900 tube by loosening the setscrew on the light head.
3. Clean around the hole to ensure no water, salt crystals or debris is near or in the tube opening for the light.
4. Carefully attach the 18-gauge 3-wire harness to the new light.
5. If installing a new 18-gauge 3-wire harness to the new light, you'll need to feed the wire down the tube and out through the grommet at the bottom of the Stanchion and connect to the switch according to the manufacturer's recommendation.
6. The light should then be re-installed to the tube and setscrew secured on the light head.

***Always use a mild, non-abrasive soap and fresh water. Thoroughly wash the aluminum with a soft towel or sponge to remove dried salt crystals and other contaminants. Rinse completely with fresh water.**

Safe Cleaners

Mild dish washing liquid, specialty marine cleaners:

Sea Safe Boat Wash, Boat Wash Concentrate and Super Suds.

Safe marine lubricants:

CRC Corrosion Inhibitor, Corrosion Block and Get Some Extreme.

Harmful Cleaners

Bleach (Clorox, etc.) and mild abrasive cleaners:
