

WIRE & CABLE CHASE

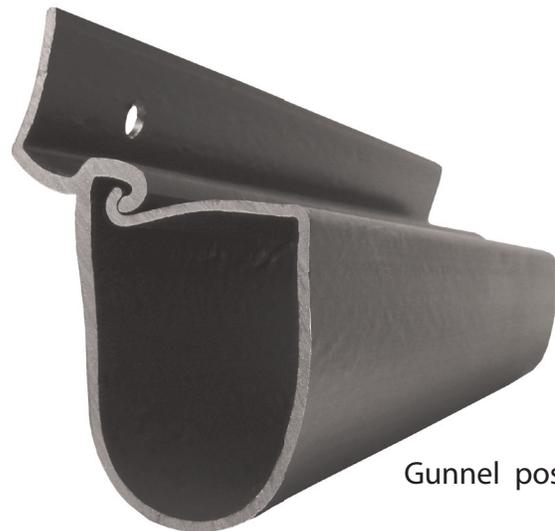

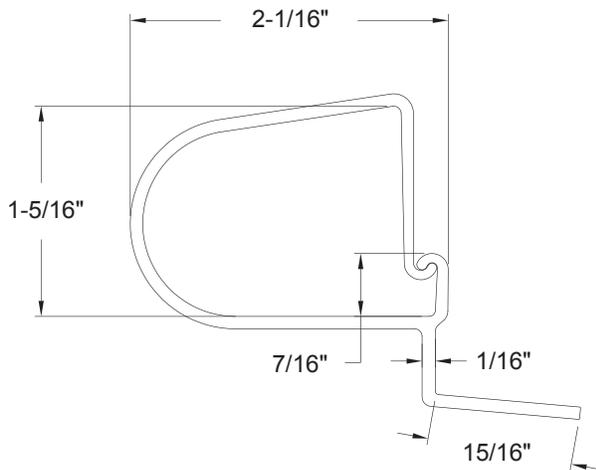

Taco Marine introduces an innovative Wire & Cable Chase product, which allows multiple opportunities for installation. Both as a stringer mount or gunnel mount, the unique locking feature allows initial and aftermarket installation of cables, wires, or other rigging components. Great alternative to the labor intensive use of wire ties or hard to use tubing for control and cable installations.

FEATURES & BENEFITS

- Easily installed onto gunnel or stringer areas
- Durable PVC construction
- Cost effective 10 foot lengths
- Easily cut shorter for multiple applications
- Self-locking cap design
- Large size profile for multiple item installations
- Provides added access for installations after original construction
