

## LOW PROFILE ADJUSTABLE SEAT SLIDE - M20-3611

Introducing the new Low Profile Adjustable Seat Slide 11-1/8" X 36"! Designed for helm chairs and benches 41" to 54" wide, this newly designed slide features a travel distance of up to 3-5/8" with five adjustable positions. Its high-strength polymer glides create a smooth, rattle free design. Quickly and easily adjust seats using the front-mounted activation paddle handle, which is always accessible in all five positions. M20-3611 is available to boat builders only. Contact your TACO Sales or Customer Service Representative for more information.
