

PRO SERIES GS-500XL OUTRIGGER MOUNT

Hardcore offshore sport fishing boats with thicker hardtops require a heavy-duty outrigger mount that can withstand day after day of pounding rides when chasing pelagic species. The Pro Series GS-500XL Outrigger Mount has a longer body for hardtops up to 4-1/2" thick. Like the Pro Series GS-500, the 500XL is durable, attractive and well known in the industry. Anglers can easily adjust the lift and rotation of the GS-500XL from the safety of the deck. This mount also features our Twist & Lock outrigger pole connection and pairs exclusively with our award-winning Carbon Fiber Tele-Outriggers up to 24' long.

TWIST & LOCK ARM

- Innovative design for easier, more secure pole connection
- Eliminates the need for pins or bolts when securing outrigger poles

HANDLES

- Rotate and lift outrigger poles from the safety of the deck
- Heavy-duty, ergonomically shaped outward rotation handle
- Robust, dual-detented lifting crank handle locks flush into base

MOUNT

- Ideal for boats from 32 to 50-plus feet
- Made for hardtops up to 4-1/2" thick
- Dredge load tested to handle a full, professional fishing spread
- Absorbs the torque and whip created by outrigger poles
- Constructed from cast stainless-steel and machined aluminum for a stronger, lighter base
- Includes matching 6"x 8"x 1/2" thick oval backing plates
- Frosty white powder coat available to OEM
- Safety detents prevent uncontrolled rotation when deploying outrigger poles
- Allows a controlled 180° rotation, if needed
- Locking head eliminates downward creep of outrigger poles
- No port or starboard designation
- Includes all mounting hardware for easy installation
- Pairs with 6° Wedge Plates (WP-500-6), sold separately
- Base hole pattern matches all TACO Marine Grand Slam models - making upgrades possible
