

LED T-TOP LIGHTS

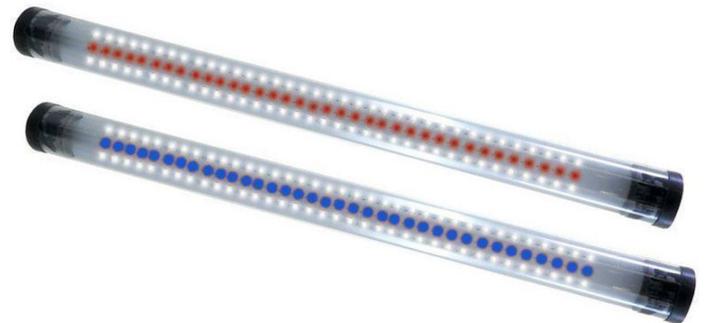

Boaters love our T-top LED Tube Light! The bright white light and low glare red or blue light is ideal for chart reading. The long-lasting low-draw lumens won't drain your battery and it's impervious to water spray, wash-downs and pounding wake. This light is great for engine rooms, T-tops and arches, and its universal design fits most existing fluorescent T-top light housings. F38-2050 is available with durable aluminum housing.
