

RUB RAIL MOUNTED LED NAVIGATION LIGHT SET, 4"

This 4" X 1" Rub Rail-Mounted LED Navigation Light Set is the perfect addition to S11-4650 Stainless Steel Rub Rail applications because of its polished stainless steel cover. These lights are sleek and low-profile, and designed to allow for cleaner, open decks with non-obstructed view points. Very popular with bay boats, these easy-to-install lights meet ABYC and USCG requirements for both sail and powerboat designation, have a water-resistant IP68 rating and provide hours of maintenance-free, reliable use.

FEATURES & BENEFITS

- Ideal for up to 30' boats and designed to fit the S11-4650 Hollow Back Stainless Steel Rub Rail
- Sold in pairs with one 3-watt port (red) light and one 2-watt starboard (green) light
- Brightness compares to 10-watt incandescent light
- Enables more deck space and easy to install
- Provides a 112.5° unobstructed view with less glare
- Certified for ABYC/USCG-approved 2 NM
- Low-voltage 12-14VDC
- Anodized aluminum heat sink for maximum heat dissipation
- LED lights are mounted in a heavy gauge polished stainless-steel joiner cover
- Water-resistant IP68 rating
- Requires #8 stainless-steel fastener (not included)
